LETTER OF RECOMMENDATION

April 6, 1987

Aharon Chen has performed numerous paint and light carpentry projects for Southmark Management Corporation. He has been involved in bidding, material estimates, color selection and project management for painting projects throughout the United States.

I have the highest regard for his professional expertise as well as his personal integrity. I value his honesty as well as his dependability to get a project completed in minimal time with a great degree of professionalism and with the highest quality of work. I would recommend Aharon to anyone as a preferred individual as well as a very competent and professional painter.

Mark V. Dennis  
Vice President - Construction  
Southmark Management Corp.
